

Pottstown Environmental Advisory Council
Minutes for June 26 2023

Call to order 3:30

Participating:

Jim Derr, Lynn Dewees, Rich Bouher

In person and remote.

1. Public Comments

Deb Spence

2. Questions about the EAC

Remote Access: we will try to provide a remote access meeting connection for future meetings

Schedule:

We will try to provide a remote access link for future meetings.

3. Ongoing Issues

- Renewable Energy efforts

We suggested that the Borough take on an effort to replace lights with LEDs, specifically to make sure we are using PECO incentives.

We have since heard that the Borough has replaced most bulbs with LEDs.

(This is an example of what is missed when the EAC is disconnected from Borough operations.)

RF 100 / Carbon Neutral / Sustainable Energy / Renewable Energy

- Communication / Outreach & education info

No activity

3. New Business

The committee is looking to broaden the topics of discussion. One item brought up is that the bike lanes have made Pottstown more accessible by bicycle; but there are not many places to lock a bicycle near the businesses downtown. We would like to help look at potential resources.

Ross Belovich has indicated that he will not renew membership, expiring in August.

The EAC will have an open slot and we invite new membership.

Next Meeting – July 24
